

No butts about it.

Colon cancer screening can
save your life.

Colorectal cancer is the second leading cause of U.S. cancer deaths...and it can actually be **PREVENTED** by screening. If you're age 50 or over, or age 45 or over if you're African-American, Methodist Hospitals can help **YOU** prevent colon cancer.

For more information or to schedule your screening,

CALL 219-769-4373

It may just save your life.
